

## Best Practices For Selecting and Implementing Audit, Anti-Fraud and Assurance Software

---

May 2, 2006  
(All Day Seminar)

### Learning objectives:

- Obtain a clear definition of the audit, anti-fraud, and assurance software market, ensuring you create the best business plan before buying anything.
- Gain knowledge about each software category from the most extensive analysis of the audit software market ever completed (over 500 hours of vendor and user research).
- See the forecasted industry trends that will affect your next purchase so you don't select the wrong technology.
- Learn best practices for your next installation to avoid any implementation pitfalls.
- Understand how to set a step-by-step vendor selection and implementation plan for audit, anti-fraud, and assurance software.

**Key Bonus:** All attendees to the May 2nd educational seminar will receive a new copy of the 2006 Buyer's Guide to Audit, Anti-Fraud, and Assurance Software (\$180 value). Please see the 2005 Buyer's Guide (<http://www.richlanza.com/prodservice/buyguide.htm>) that will be updated for 2006 prior to the May 2nd event.

**Key Note:** If you would like to simply browse the software vendor expo area on May 1st and 2nd, which will be set in a hotel ballroom, you are more than welcome and we only ask that you register for the event (the cost is free to browse the vendor booths).
